Plant no fruit trees unless you intend to feed and cultivate them. It will be useless. Set out first a diverse supply for home use, for there is as much profit in this as in those planted for sale.

It is idle to set out strawberry plants in shallow soil, and unless the ground is pretty free from perennial weeds, these weeds will become an unbearable abomination. If the plants can be set out with a ball of earth they may be put out in the fall and produce a good crop next summer; otherwise wait until spring, for they will then have ample time to mature for the coming season.

Mr. F. D. Spottswood has sold to B. C. Patchings, of Mayland, N. Y., the very high class stallion, Cecilian 2:19 1/4 by Gambleton Wilkes; dam, by Nutwood. This is one of the highest type of trotting stallions in Kentucky, as he is siring speed and size and invariably beauty. His removal to New York will be quite a loss to the breeding interests of Kentucky.—Harrodsburg Democrat.

A novel enterprise will be started near the Harlan track, Chicago, when racing season opens. Horsemen will be attracted by a sign which will read about as follows: "For Horses—Turkish baths, \$6; Russian baths, \$5.50; Vapor baths, \$5. Skilled Massage attendants. Rejuvenescence of Equines a specialty." M. B. Boyle, of No. 1235 Wabash avenue, proposes to introduce this innovation in the methods of re-

Baby Mine!

Every mother feels an indescribable dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger of the ordeal make its anticipation one of misery.

MOTHER'S FRIEND

is the remedy which relieves women of the great pain and suffering incident to maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is removed by its use. Those who use this remedy are no longer dependent or gloomy; nervousness, nausea and other distressing conditions are avoided, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. It is a blessing to woman.

storing vigor to the aged race horse, bringing back the flashing eye and proud bearing, and arousing its dormant ambitions.

The Weed, Louisville, leading tobacco journal says: Dark tobacco shows no improvement since the first of the year, with the probable exception of good leaf suitable for the rehandlers. Old Burley has shown much improvement during the past week and gives promise of coming near prices on the new crop. Old Colory Burley is especially in good demand. From the present outlook, Louisville will handle less Dark tobacco this year than has been known in the history of the market for ten years. Large sales "in the field," and the very high prices paid at the Dark markets has caused a very great shortage in shipments to this market.

There can be no doubt that the light-harness horse industry starts the year of 1898 on a more substantial footing than it has been during the past four years, says the Winchester Democrat. The demand for good horses in 1897 was greatly increased, and prices ruled almost as high as ever they did with the exception of "boom times." The advantage of advertising a horse early is that he may be among the first considered when mares are being booked, and the wise stallion owner will not overlook this fact. Money invested in an advertisement at the proper time and in the proper manner could not be spent to any better advantage under any conditions. Bear this in mind and do not fail to announce your stallion as early as possible.

A writer in the Scientific American says he has cleared his premises of vermin by making whitewash yellow with copperas and covering the stones and rafters with it. In every crevice in which a rat might go he put the copperas, and scattered it in the corners of the floor. The result was, complete disappearance of rats and mice. Since that time not a rat or mouse has been seen near the house.

Cecil sold to McAllister, of Moreland, three weanling fillies by Cecilian at \$100 each. Swinebroad sold to Gentry Bros., of Lexington, a pair of good five-year-old combined horses for \$230. He has just received a splendid lot of fifty feeding cattle, two to four years old, which he picked up in the mountains.—Danville Advocate.

Paint Lick Creek was higher Saturday than it has been for a long time.

The sale of Willis Adams on the 23d was postponed on account of high waters and the rain poured down all day.

We had a considerable wind and rain storm here Saturday night. It blew the top off of E. W. Norris corn crib and tumbled over his hen house and carried it about fifty feet.

John Pearl, of London was here a few days ago looking after his farm.

Mr. and Mrs. J. B. Leavell, of Bryantsville, were here on a visit Saturday and Sunday.

William Asher has rented his blacksmith and carriage shop to John Rucker and Rodney Griggs for this year.

They are both young men with the get up and get in them and they will do a rushing business. John can make anything from a ditty pin to a traction engine. Rodney can make anything except a ditty pin.

Mr. William Asher, our clever blacksmith and carriage shop, has invented a double shovels plow and made application for a patent which will make the oldest farmers smile to see it come into their corn fields and prove it's worth.

It is so constructed that by moving one small bolt it can be made to run deep or shallow, then you can take off a part of the beam and convert it into a single shovel plow and lay off corn or tobacco land, so you see he has two plows in one. It is light, simple and nothing to get out of order. We hope to see Mr. Asher reap a nice fortune from his invention and believe he will for it is the farmers friend and that is what they want.

BRYANTSVILLE, KY.

To the members of the Kentucky Growers Insurance Co., and to whom it may concern:

Owing to the many inquiries relative to the loss of my dwelling by fire, I wish to say for the benefit of those interested, that the amount due me under my policy in case of a total loss was determined when I made my application and as shown by my policy. Owing to my absence in Virginia my loss was not certified by Mr. G. T. Higginbotham, Chairman of Garrard county board, to the company for payment until Nov. 21, and in less than sixty days thereafter I received the entire amount insured for. For solvency and cheapness every farmer should consider our company before insuring elsewhere.

Yours truly,

N. Noz.
